

## **Aerial Lift Train the Trainer Edmonton**

Aerial Lift Train the Trainer Edmonton - The train the trainer program meant for aerial lifts helps to teach the trainers how to safely train potential operators in an industrial situation. Trainers would be provided with in-depth instruction on the workings of aerial lift machinery. The program is offered on an open enrollment basis and delivered at selected training places. Prior to certification, trainers are assessed and scored based on their demonstrated skills and knowledge.

The Aerial Lifts Train the Trainer Certification Program emphasizes practical learning. As the number one training provider in the business, we provide the best hands-on training possible through opportunities to practice concepts and techniques taught within the classroom. In addition to hands-on experience, trainers develop general understanding of instructional methods and machine theory, field and classroom communication skills, and ability to effectively train and assess operators. Trainers would gain knowledge about what traits make a successful trainer.

The Aerial Lifts Train the Trainer Program likewise teaches the right techniques necessary in order to express the right information inside the classroom and field environment. There are three aspects of equipment operation which the trainer must learn how to convey to operators: what to perform; how to do it; and why it must be done.

In the program, trainers will be provided with the detailed, latest reference material to better help them convey the information to machine operators. The guidebooks used, include detailed information about all aspects of industrial mobile equipment operator training. Included in the package are training aids which provide a visual reference to improve the learning experience. The equipment-specific training products include important materials for both the operator and the trainer: overhead transparencies, videos/DVD's, safety message posters, equipment models; stability pyramids and digital training aids.
