

Clark Forklift

At this time, there are no less than 350,000 Clark lift trucks performing globally, and more than 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 particular components intended for 20 exclusive brands of forklifts and automated equipment. Your local Clark Seller is your total source for availability of all your components requirements offered by Clark Totalift.

Clark has a exceptional Parts Supply team. The items warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very amazing global support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark has a unrelenting goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant market position.

Lean Production

Clark has chosen the particularly economical and beneficial system of "Lean Production" for its assembly facilities and use of resources. This system was established to acknowledge the most efficient approaches of manufacturing plant stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engine Design

Clark's product engineers and suppliers join together to upgrade the efficiency and brilliance of their products while minimizing expenses. The contemporary value engineering agenda combines progressive product development and offers improved consumer support and service within the industry.
